AB Matin

Herat / Afghanistan

abduahmad.matin@gmail.com

+93792804918

WORK EXPERIENCE (2017 - Now) >= 6 years

Full Stack Web Developer (Laravel, NextJS)

X-10 Project – Germany

May 2023 to Jul 2023 (Full Time - Remote) - (NextJS + Laravel)

It was a remote and full-time job, most of projects was with Laravel (Building API and Backend Side). And its frontend was with react, I developed a backend for the ReactJS frontend and also worked with ReactJS (NextJS)

Full Stack Web Developer (JS, PHP) / WordPress Developer

Webfume Technologies LLC – California – United states

Mar 2021 to 2023 (Full Time - Remote) - (WordPress + Laravel + Angular + NodeJS)

It was a remote and full-time job, most of projects was with WordPress (Building themes from scratch, developing new plugins, customizing themes and ...). I also was a full stack JavaScript developer and used Angular for frontend. NodeJS and MongoDB for backend on JS projects

Freelancer (PHP Frameworks, Core PHP)

MACS GC – Herat - Afghanistan

May 2019 to 2021 (Part Time - Hybrid) – (Laravel + CodeIgniter)

It was a freelancer job and I did many projects with Laravel, Core PHP I was a frontend a backend developer so I built the frontend and backend with excellent user-friendly and mobile first UI UX

Backend Developer (PHP Frameworks, Core PHP)

Tanbali Shop – Herat - Afghanistan

Jun 2019 to Sep 2019 (Part Time - remote) - (**Laravel + Core PHP**)

It was extra work when I had extra time. I developed the backend for an online shop, and the frontend of the shop was an Android app that needed to connect to a database with an API. It needed a system to update the database, which is why I used **Laravel Passport** and **Firebase** for notifications

Full Stack Web Developer (PHP Frameworks, Core PHP)

Zarvan Services – Herat - Afghanistan

May 2016 to 2021 (Full Time - Office) - (**Laravel + CodeIgniter + Angular**)

I worked as a full-stack web developer (**PHP**) and most of our projects were with **Laravel** and some **CodeIgniter** frameworks. When I first joined the company, I was just an intern and a student. However, I built myself up through self-learning and direct involvement with real projects. After 6 months, I became an employee there. My responsibilities included communicating with clients, gathering requirements, teaching customers how to use their projects, developing numerous websites, and creating databases.

Education

Bachelors in Computer Science, Database and Information Systems in Herat University - Herat, Afghanistan April 2014 to December 2017 Monday, September 7, 2020

English Language - Ertiga institute - Herat, Afghanistan June 2019 to Nov 2020
